

International Association of Lions Clubs

Born as a dream of Melvin Jones, a Chicago insurance man on June 17, 1917, Jones believed that local business clubs should extend their missions from purely professional concerns to the betterment of their local communities and the world community.

In 1925, at the annual convention held in Cedar Point, Iowa, Ms Helen Keller challenged the Lions to be "The Knights of the Blind, in the crusade against blindness". Not only did the Lions pick up the gauntlet against blindness, but also against hearing impairments.

To this day, the LIONS vision is to help eradicate blindness, to aid those with sight and hearing impairments, side by side with providing service for other community needs.

Our International Motto is:

WE SERVE

Today there are over 44,500 Lions Clubs in 205 countries. We invite you to join us in our vision.

LIONS CLUBS OBJECTIVES

To create and foster a spirit of understanding among people of the world.

To promote the principles of good government and good citizenship.

To take active interest in the civil, cultural, social and moral welfare of the community.

To unite the clubs in the bonds of mutual understanding and friendship.

To provide a forum for the open discussion of all matters of public interest; provided, however that partisan politics and sectarian religion shall not be debated by club members.

To encourage service-minded men and women to serve their community without personal financial reward, and encourage efficiency and promote high ethical standards in commerce, industry, professions, public works and private endeavors.
